PICTURES OF TODAY ARE MEMORIES OF TOMORROW

As you reminisce through this yearbook at some future date what will the pictures call to mind about the school year 1966-67? When memory comes to keep you company what will the facts show? Will you have planned, achieved, and served to the best of your ability?

You're getting sleepy!

YIPPEE

Where's the D?

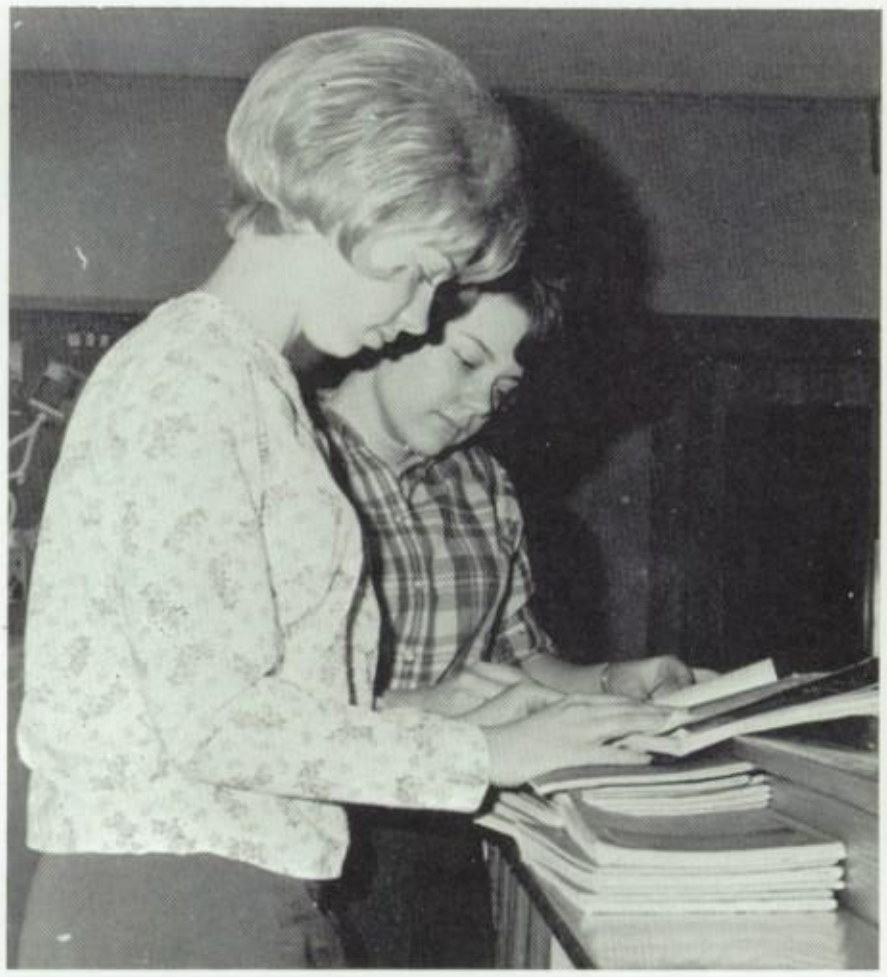
CANDIDS

The "IN" crowd is here.

Beautiful.

My name is Miss Knobloch.

Say what?



It's this way Patty.

Get that belly up!

This is the life.

Roll a six coach.

Does it tickle?

Did you hear.....

No, Judy over here

Which piece is bigger

Oh John

The end of the beginning!

A lot of work goes into earning a diploma. Your name on one indicates a measure of achievement of which you can feel proud.

But a diploma is only a milestone—a measurement of what you *have* done.

Now . . . how about doing something with it?

For example, what are your plans for furthering your education?

If that isn't possible, then how about looking for a job with a company for whom you can work as beneficially as you worked for your diploma?

Personal effort is the essence of success—the key to your progress. That precious piece of paper you receive graduation day can help you unlock a bright future—as bright as you strive to make it.

May your future be a fine one!

CATERPILLAR

Dear Karen,

Well, it looks like we sisters will soon be off for college, but we go on to better things. (Ha! Ha!) Best of luck at Western this year & know you'll do okay. Well, have to have a reunion at Homecoming, but we can still write each other. Karen never forget all of the fun times we have had in high school. I know both of us will never forget our freshman Home Ec Class. We had some great times in band also. Ill never forget how hard we worked in Advanced Chemistry our junior year. But most of all I've got memories from last year. Remember some Physics problems we couldn't do & then sit & talk. (some talk) how you would come over & we would do of the ones we couldn't do & then sit & talk. (some talk) Remember the times in the "Black Flash" & the Green Hornet." Ill never forget how the Black Flash died after the Homecoming Bonfire. We sure had fun in our P.E. & Physics class— especially Physics Labs. Remember the Pith balls? I the time I had Al for a lab partner that one day (thank goodness it was for just one day!) Also our experiences on the Senior Trip (on the bus & off) We sure got a good look at the night watchman that one night. We've had some good times this summer even though if we didn't get together that much. We sure had fun the night we went out to eat - one of the rest a lot to me - Love, your friendship has meant Sue. P.S. Ill never forget the problems we learned about in Physics & we laughed like idiots!

Karen,

What would I do without you. You're really a great sister! Never forget all the great times we've had. Especially when you'd come over and we'd have lots of fun at Sue, you, + I — Have lots of fun Western this year and I'll try to be good Tryrear baby for you. Course it won't be quite the same. Be sure and write me. Best of luck always. Do if possible and at least get straight + I sure will miss you this year. Dry - to be good - with Sue to be good - I'll be through - Guess I'll have C's in college, ok? I'll put to talk to. I've got enough Don't know how there's no one to to adopt another sister. I think I say best of luck. though, don't you? Well, as Take care of yourself. Don't want anything happen to you. Be good.

Love,

Alice

Please,
